There must be a discontinuance of one thing or a death among the photographers of this state will ensue. Rev. D. B. The city council, at the meeting held on Monday night, by an amendment to the dog ordinance, gave power to the city marshal and police constables, to shoot, instead of impounding dogs. The first is the day fixed to commence the work of slaying the worthless canines, with which this city is afflicted to the number of about three thousand more than we have room for. The shooting will probably be done early in the morning.

Mr. Davis of the 'Sun' is quoting the charter to prove that the "THE BULLETIN" cannot do the printing for the city, because the chief of police owns some stock in it. The company is the bidder, and if its bid is the lowest, it should have the printing. The chief can then look out for himself. But the objection is frivolous; and, before Davis makes the objection he should be sure that he knows who the stockholders of THE BULLETIN are.

The gentleman by the name of Davis, who edits the 'Sun,' declares that the ordinances will measure up in a year 1,000 squares, and amount at the bid of THE BULLETIN to \$500. This is ridiculous. One thousand squares fill fifty columns of THE BULLETIN. 180. This year we think 100 squares will cover all. Davis is either an ass himself or believes the aldermen are.

The installation ceremonies of the Rough and Ready Fire company were very interesting. A free lunch was spread, and the Delta Cornet band discoursed excellent music. The boys enjoyed themselves hugely About half-past 10 o'clock the company was called to order by President Bross, and Mayor Wood being called for, made a short but appropriate speech. Then Mr. Oberly was called out, and President Bross followed, after whose speech the meeting ad-
